INDEX

A

Abdominal cesarean section, indications and prognosis, Abstracts, 403
Abdominal section, the treatment of suppurating wounds following, 88
Abortion complicated by sepsis, the treatment of, George A. Peck, 679, 740
Abortion, missed, J. E. Litzenberg, 475, 522
Abrams, S. F., Entwining of umbilical cords in single amnion twin pregnancy, 955
Accidental hemorrhage, James K. Quigley, 372, 382
Acidosis in operative surgery and its treatment by glucose and gum acacia given intravenously, Lilian K. P. Farrar, 92
Adair, F. L., The development of prenatal care and maternal welfare work in Paris under the Children's Bureau of the American Red Cross, 141, 200
Adenoma hidradenoides tubulare destruens, on a case of, Emil Schwarz, 695
Adenomyometritis, not adenomyoma of the uterus, L. W. Strong, 901
Anesthesia, a new method of vesical, Henry D. Furniss, 398
Anesthesia to surgery of the lower abdomen, practical application of local, Robert E. Farr, 806
Announcement, 1

B

Babcock, W. Wayne, Cholecystogastrostomy and cholecystoduodenstomy, 854
Backache, gynecologic, E. A. Bullard 717
Bailey, Harold C., Cranial and intracranial birth injuries, 52
Bainbridge, William S., Benign mammary tumors and intestinal toxemia, 528
Baldwin, J. F., Some indications for hysterectomy, 609, 633
Banghmann, G., A preliminary report on pyelitis in pregnancy, with report of cases, 436, 526
Beck, Alfred C., The advantages and disadvantages of the two-flap incision cesarean section, with a report of eighty-three cases done by fifteen operators, 586, 636
Bigler, Lottie G., The problem of the expectant mother in rural communities, 298
Birth injuries, cranial and intracranial, Harold C. Bailey, 52
Bladder, rupture of the, during labor, J. W. Poucher, 371, 382
Blood transfusion, the use of, in obstetries and gynecology, H. C. Williamson, 188
Bonifield, Charles L., Report of several cases of postoperative convalescence complicated by faulty functioning of the ductless glands, 677, 742
Book reviews, Operative Gynecology, Harry S. Crossen, 1001

C

Cancer of the cervix, operation or radium for operable? William P. Graves, 122
Cancer of the uterus in young women, Gordon Gibson, 273
Cancer, some factors that determine tissue resistance to, James E. Davis, 668, 743
Cancer, an analysis of the failures in radium treatment of cervical, F. J. Taussig, 113
Cervix, border-line carcinoma of the, and its treatment, Edward A. Weiss, 661, 735
Cesarean section, James K. Quigley, 372, 382
Cesarean section after a previous normal labor, delivery by, Edward C. Lyon, 746
Cesarean section, double-flap, low, results, Thurston S. Welton, 350, 379

Cesarean section, extraperitoneal, John A. McGlinn, 45, 85
Cesarean section, the advantages and disadvantages of the two-flap low incision with a report of eighty-three cases done by fifteen operators, Alfred C. Beck, 586, 636
Cesarean section, repeated, Paul Titus, 835
Chase, Herbert C., Right tubal pregnancy of the fourth month with rupture into the cecum, 393
Child, Charles G., Sterility in the female, A report of operative cures, 248, 306
Cholecystogastrostomy and cholecystoduodenostomy, W. Wayne Babcock, 854
Chorea gravidarum, Grandison D. Royston, 941
Chorioepithelioma following hydatid mole, Byron H. Goff, 619
Clark, E. D., and Gabe, W. E., Fibroma of the ovary, 603, 632
Collective Reviews:
Recent progress in obstetrics and gynecology, Hugo Ehrenfest, 88
The prophylaxis and treatment of puerperal infections, Hugo Ehrenfest, 103
Recent literature on eclampsia, Hugo Ehrenfest, 214
Five year radium cures of cervical cancer, F. J. Taussig, 314
The views of primitive peoples concerning menstruation, Jonathan Wright, 400
Nitrous oxide-oxygen analgesia and anesthesia in normal labor and operative obstetrics, Hugo Ehrenfest, 535
The ovary and its physiologic functions, S. S. Schochet, 643
New outlooks in the radiotherapy of fibroids and uterine hemorrhages, George Gellhorn, 767
Views of primitive peoples concerning the puerperium, Jonathan Wright, 884
Curettage, dangers of, Abstract, 541
